# ABOUT OUR COMPANY

Established in 1985, SRJ Group is a Bangalore-based engineering firm delivering integrated infrastructure solutions across industrial, commercial, and infrastructure sectors. Our expertise spans MEP contracting, fire protection systems, industrial piping, heavy structural fabrication, and water treatment solutions—enabling us to execute complex, multidisciplinary projects with precision and reliability.

With a strong foundation built on engineering excellence and operational discipline, we provide end-to-end solutions that combine technical expertise with a deep understanding of on-ground execution. Each project is approached with a focus on quality, safety, and long-term reliability.

Over the years, SRJ Group has successfully partnered with leading organizations including Bangalore International Airport, Larsen & Toubro, and Bosch India—demonstrating our capability to deliver to the highest standards across diverse and demanding environments.

Backed by a skilled team and a commitment to continuous improvement, we transform complex challenges into efficient, future-ready solutions, ensuring consistent value for our clients across every project we undertake.

## KEY HIGHLIGHTS

- ✓ 40+ Years of experience
- ✓ ISO Certified
- ✓ Trusted by industry leaders
- ✓ 100+ projects delivered

# OUR SERVICES

## 01 MEP SYSTEMS

Integrated MEP (Mechanical, Electrical, and Plumbing) solutions encompassing design, engineering, installation, and system integration across industrial, commercial, and infrastructure projects. Capabilities span HVAC systems, electrical infrastructure, fire protection and security systems, as well as plumbing and utility networks.

## 02 INDUSTRIAL PIPING

End-to-end industrial and process piping solutions encompassing design, engineering, material selection, installation, testing, and system modification. Capabilities include compressed air systems, chilled water piping, steam and boiler lines, sewage and water systems, as well as specialized gas pipelines for natural gas, nitrogen, ammonia, and other industrial gases.

## 03 FIRE PROTECTION SYSTEMS

Comprehensive fire protection solutions covering the design, installation, and commissioning of critical safety systems. Services include fire detection and alarm systems, sprinkler and hydrant networks, suppression systems (wet, dry, and chemical), along with specialized solutions such as FM-200, CO<sub>2</sub>, and foam-based systems.

## 04 HEAVY STRUCTURAL FABRICATION

Advanced heavy structural fabrication solutions delivered across design, engineering, fabrication, and on-site installation of complex steel structures. Our capabilities include structural frameworks, industrial supports, equipment installations, and custom-fabricated components tailored to project-specific requirements.

Each solution is executed with a focus on precision, structural integrity, and safety, ensuring reliable performance and long-term durability across demanding industrial environments.

## 05 WATER TREATMENT PLANT

Comprehensive water treatment solutions, covering the design, construction, and maintenance of advanced treatment plants for industrial and commercial applications. Services include rainwater harvesting systems tailored to project-specific requirements.

Enhanced through collaborations with global partners such as Krone and Innovatech, each system integrates advanced treatment technologies and sustainable practices—ensuring efficient operation, regulatory compliance, and long-term environmental responsibility.

# MEP SERVICE PROVIDER

SRJ Group delivers Integrated MEP (Mechanical, Electrical, and Plumbing) solutions delivered across industrial, commercial, and infrastructure projects—engineered for precision, reliability, and seamless system integration. Our multidisciplinary approach ensures efficient execution of critical building services, supporting high-performance and future-ready facilities.

## SCOPE OF CAPABILITIES:

### Mechanical Systems

- HVAC (Heating, Ventilation & Air Conditioning)
- Advanced ventilation and refrigeration systems
- Energy-efficient and performance-driven solutions

### Electrical Systems

- Power distribution and control systems
- Intelligent lighting solutions
- Fire detection and integrated security systems

### Plumbing & Utilities

- Water supply, sewage, and drainage systems
- Industrial piping for gases (nitrogen, ammonia, natural gas)
- End-to-end installation and maintenance

# INDUSTRIAL PIPING

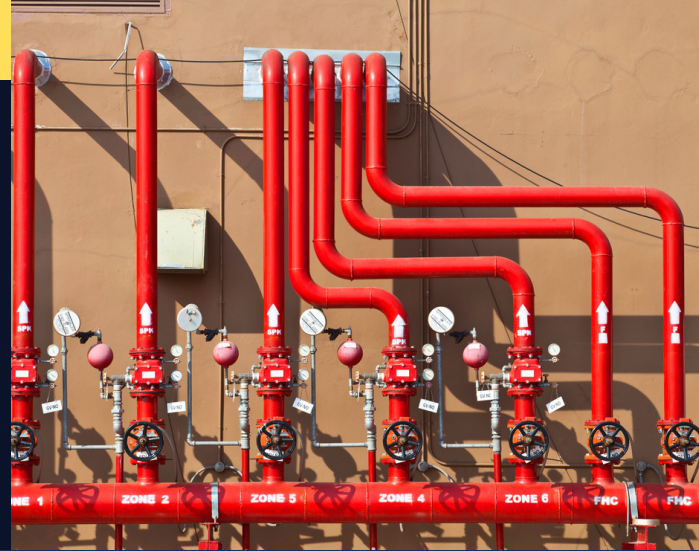

SRJ Group offers comprehensive industrial piping services tailored to meet the unique demands of different industries. Our expertise spans the full spectrum of piping solutions, from design and installation to maintenance and repair, ensuring that your systems operate with optimal efficiency and reliability.

Our team of experienced professionals uses advanced techniques and materials to deliver piping solutions that meet the highest industry standards. Whether you're looking to install new systems or upgrade existing ones, SRJ Group is your trusted partner in achieving reliable and efficient industrial piping solutions that stand the test of time.

## SCOPE OF SERVICES IN THIS SECTOR:

- All compressed air systems
- Chilled water piping system
- Sewage ejection systems/treatment systems
- R.O. & Soft water systems
- Hot water re-circulation systems
- Boiler Installation
- Steam piping & chiller line
- Waste Water Treatment Plant Design / Install / Repair
- Process liquids and gasses – All Flammable Gasses, Compressed Air, Natural Gas, All Compressed Liquids and Gasses like Nitrogen, ammonia, oil, etc.

# **FIRE** **PROTECTION SYSTEMS**

SRJ Piping offers integrated fire safety solutions which help meet the challenges of effective fire suppression. In addition to FPS, we undertake fire sprinkler systems, suppressions and FM200 systems. Our team always ensures to keep abreast of various standards, codes, and zonal regulations so that your fire protection system is designed in accordance with them.

We don't just stop there; we carry out regular inspections and safety procedure checks to ensure all systems are functioning perfectly in the event of a fire. Safety is our number one priority when it comes to protecting human life and assets. Our top mission is to prioritize the lives of every individual as well as their valuable assets.

## **TYPES OF FIRE PROTECTION SYSTEMS WE PROVIDE:**

- Fire Sprinkler Systems
- Fire Alarm and Fire Detection Systems
- Fire Suppression Systems – Wet and dry chemical agents, Deluge systems
- Special Hazard Fire Protection Systems – FOAM, CO2 and CHEMICAL
- FM-200

# HEAVY STRUCTURAL FABRICATION

At SRJ Group, we specialize in heavy steel structural fabrication, providing robust and reliable solutions for a wide range of industrial and commercial applications. Our expertise in this area allows us to deliver high-quality, custom-fabricated steel structures that meet the most demanding specifications.

We take pride in our state-of-the-art fabrication techniques, where precision and attention to detail are paramount. Our advanced equipment and skilled workforce ensure that every component is fabricated to exact standards, guaranteeing strength, durability, and longevity.

At SRJ, we understand that every project is unique, which is why we work closely with our clients to ensure that our fabricated structures align perfectly with their needs. Our commitment to excellence, safety, and efficiency makes us a trusted partner in the construction industry, delivering solutions that stand the test of time.

## TYPES OF STRUCTURAL FABRICATION WE UNDERTAKE:

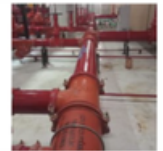

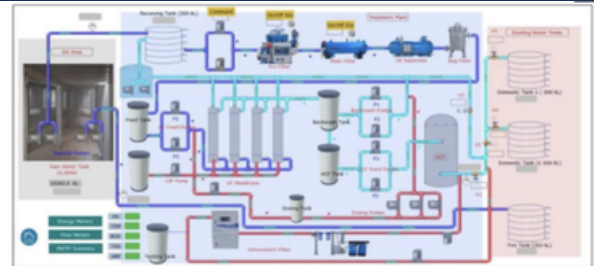

- Steel framework design and installation
- Poly-house
- Steel beams and pillars erection
- Heavy material hookups and installation
- Corrosion protection service
- Fabrication Designing only (economical fee)

# WATER TREATMENT PLANT (WTP)

SRJ Group takes pride in our expertise in designing, constructing, and maintaining state-of-the-art water treatment plants, offering sustainable solutions for clean and safe water management. We are committed to delivering efficient, cost-effective systems that surpass regulatory standards, ensuring the highest levels of water purity for industrial, commercial, and municipal use.

Our partnership with international industry leaders Krone and Innovatech enhances our capabilities, allowing us to integrate cutting-edge technology and innovative processes into our water treatment solutions. These collaborations enable us to provide advanced, reliable infrastructure that not only treats wastewater and purifies drinking water but also promotes environmental sustainability and resource efficiency through rainwater collection and treatment plants.

This is the exclusive property of SRJ Group of Companies, Bangalore

# ANNUAL MAINTENANCE CONTRACT (AMC)

SRJ Group provides comprehensive Annual Maintenance Contracts (AMC) for fire protection systems, ensuring that every component remains fully operational, compliant, and ready to perform when it matters most.

With over 40 years of engineering experience, we help industrial, commercial, healthcare, hospitality, educational, and infrastructure facilities maintain the highest standards of fire safety through preventive inspections, scheduled maintenance, testing, servicing, and system upgrades.

Our proactive maintenance approach minimizes downtime, extends equipment life, and ensures compliance with statutory fire safety regulations.

## SCOPE OF AMC SERVICES

### FIRE EXTINGUISHER MAINTENANCE

- Annual inspection & preventive servicing
- Pressure, leakage & seal inspection
- Refilling & recharging
- Hydrostatic testing coordination
- BIS-compliant maintenance

### FIRE HYDRANT SYSTEMS

- Pump performance testing
- Valve & landing valve inspection
- Hose reel servicing
- Pressure testing
- Complete hydrant line maintenance

### FIRE ALARM & DETECTION SYSTEMS

- Smoke & heat detector testing
- Manual call point inspection
- Control panel diagnostics
- Battery health checks
- System calibration

### FIRE SUPPRESSION SYSTEMS

- Sprinkler system maintenance
- Deluge systems
- FM-200 systems
- CO<sub>2</sub> suppression systems
- Foam suppression systems

### SYSTEM UPGRADES & MODERNIZATION

- Existing sprinkler upgrades
- Fire detection upgrades
- Gas suppression modifications
- Flexible hose replacement
- Control panel modernization

### TESTING & COMPLIANCE

- Routine testing & inspections
- Statutory compliance support
- Detailed reporting
- Recommendations for improvement
- Audit & documentation support

# HOW WE WORK

At SRJ Group, our project process is streamlined into four stages:

**Planning and Design:** We collaborate with clients to create detailed, compliant designs.

**Procurement and Preparation:** We order and inspect materials, setting up a secure site yard.

**Execution and Construction:** Our team builds or installs according to the approved plans, maintaining high quality and safety.

**Quality Assurance and Handover:** We conduct final inspections, make necessary adjustments, and hand over the completed project.

Planning & Design

Procurement & Preparation

Execution & Construction

Quality Assurance & Handover

# OUR PHILOSOPHY

## 01 ETHOS

We strive to integrate the diverse abilities and characteristics of our employees to offer professional, high-quality services with uncompromising standards. Our commitment extends to our wide array of services we offer.

## 03 ETHICS

We empower each member of our team to grow personally and professionally in the workspace and beyond. Additionally, we treat all properties, rented or privately owned, as treasured assets to whoever calls them home.

## 02 COMMITMENT

At SRJ Group, we uphold the highest standards of industry practices and strive to do a little more to achieve customer satisfaction through fulfillment of their differential requirements in the most hassle-free manner possible.

## 04 DRIVE

At the core of our operations lie the following guiding principles: Care, high standards, impact, respect, and empowerment. Our work drive comes alive when we achieve these factors in turn leading to high client satisfaction.

# ISO CERTIFICATION

## Certificate of Registration

This is to certify that Occupational Health & Safety Management System of

**SRJ PIPING INDIA PRIVATE LIMITED**

#302, 3rd Floor, HM Geneva House, #14, Cunningham Road, Bangalore 560052, Karnataka, India

is in accordance with the requirements of the following standard

**ISO 45001:2018**  
(Occupational Health & Safety Management System)

### SCOPE

"Fire Protection System, Industrial Piping, Heavy Structural Fabrication, MEP, Installation, Design & Testing"

(IAF Code: 17.34.28)

Certificate Number : SCK/03/SP/23/91/5019

To verify certificate, visit at:
